

Help vets save pets!

Pet  **Emergency Fund**

There is a special place in all our hearts for the noblest among us, for those who give without hesitation to save the lives of innocent animals.

Since 1999 animal-lovers like you have been the moving force behind the Pet Emergency Fund's efforts to actively seek and distribute charitable funds to save the lives of pets whose families cannot afford emergency medical care.

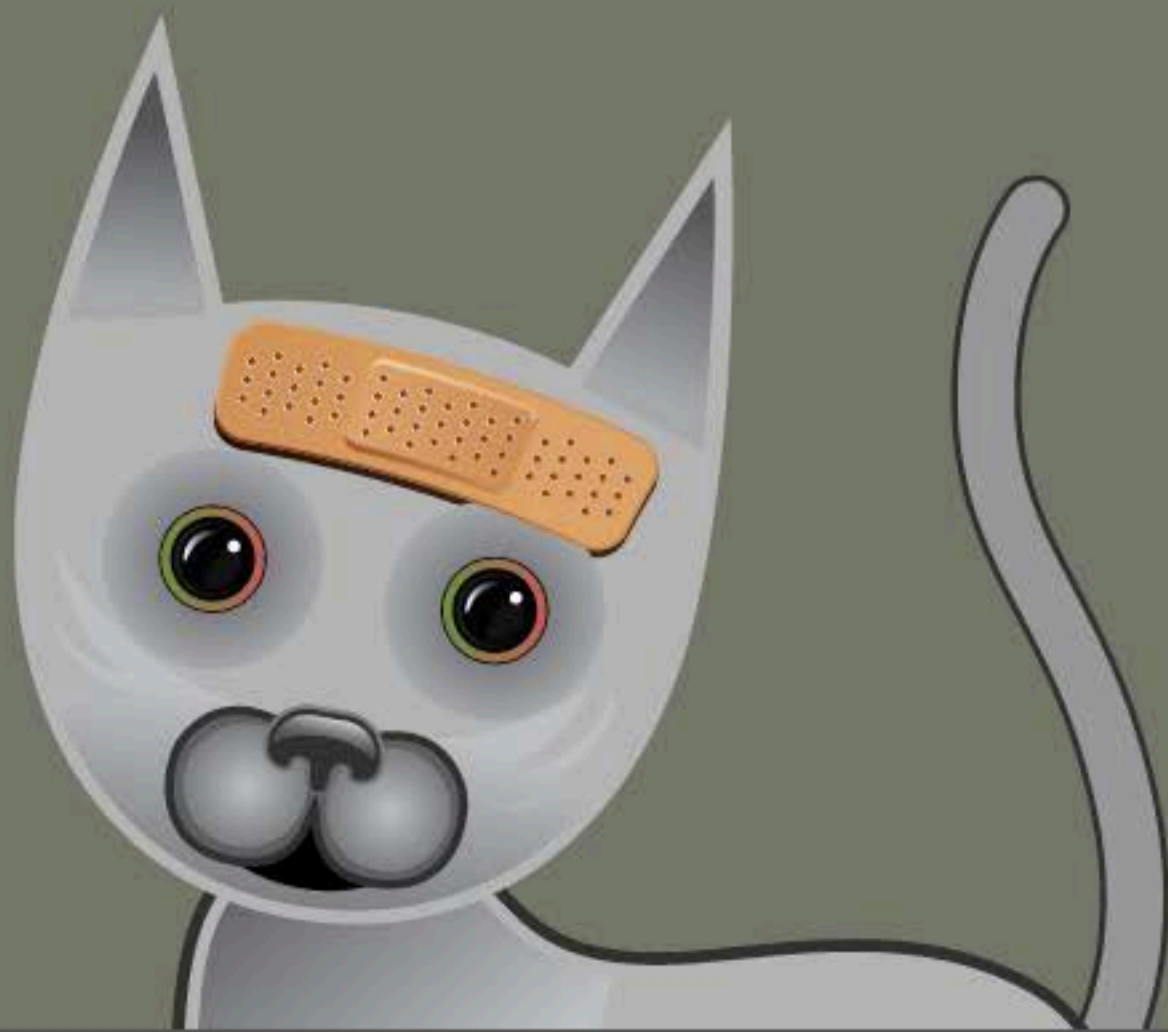

You Are the Lifeline to Crucial Emergency Care

You know how quickly a pet crisis can arise. Emergencies strike out of nowhere and the lives of cherished family members hang in the balance.

The full cost of emergency medical care – which often includes drugs, oxygen, sophisticated diagnostic procedures, the latest medical technology and surgical supplies – simply exceeds the financial resources of many pet owners.

For all of us who love animals, the alternatives to immediate emergency medical care are unthinkable. Yet, before the Pet Emergency Fund was founded by concerned local veterinarians and animal-lovers like you, financially challenged families had little recourse other than euthanasia or withholding treatment.

Thanks to your contributions to PEF, financially strapped owners – who desperately want to do the right thing – have a lifeline to crucial emergency care.

Getting Your Contributions Quickly to Innocent Victims

When a medical emergency strikes, time is crucial. That's why the Pet Emergency Fund is structured so that decisions concerning monetary assistance rest fully with veterinary hospitals.

The amount of money available for charitable medical intervention at each veterinary hospital changes each year based on the results of our on-going fund-raising efforts. PEF funds you provide are distributed quarterly to member veterinary hospitals in Erie and Niagara Counties.

Veterinarians are thoughtful stewards of your hard-earned dollars! Every effort is made to use available funds to save the lives of family pets that have the best chance of recovery, and to defray costs for owners who cannot afford the full burden of their pets' emergency care.
